DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mark Williamson on 24 April 2009.

Amend the claims filed 19 February 2009 as follows:

Amend **claim 19** to the following:

A core splitter comprising:

a trough in which a liquid bath will, in use, be contained;

a core support device for holding a core in position during a cutting operation, the core support device being located within the trough;

a cutting head to which a cutter may be attached and which can be moved along the trough to cut the core along one or more radial planes into two or more parts; and

a core holder in which the core is carried, the core holder being of polygonal section and dimensioned to hold the core firmly, the core holder having a slot at its upper end through which the cutter can enter the core holder to cut the core.

Amend **claim 20** line 1 to replace the first occurrence of the word "holder" with the word --splitter--.

Amend **claim 21** line 1 to replace the first occurrence of the word "holder" with the word --splitter--.

The following is an examiner's statement of reasons for allowance:

The prior art of record including the Cymbalisty and Rigley references fail to teach the limitations found in independent claim 19 of a core splitter comprising a core holder of polygonal section with a slot in the upper end through which the cutter can enter to cut the core sample while holding the core firmly. The Cymbalisty reference discloses a core cutting apparatus without the trough as claimed and lacks a core holder with the claimed features. The Rigley reference which comprises a fluid bath is not capable of cutting a core sample as used in the present invention due to its lack of a core support device and a core holder as is claimed. As claims 20 and 21 both depend from 19, they are deemed allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
